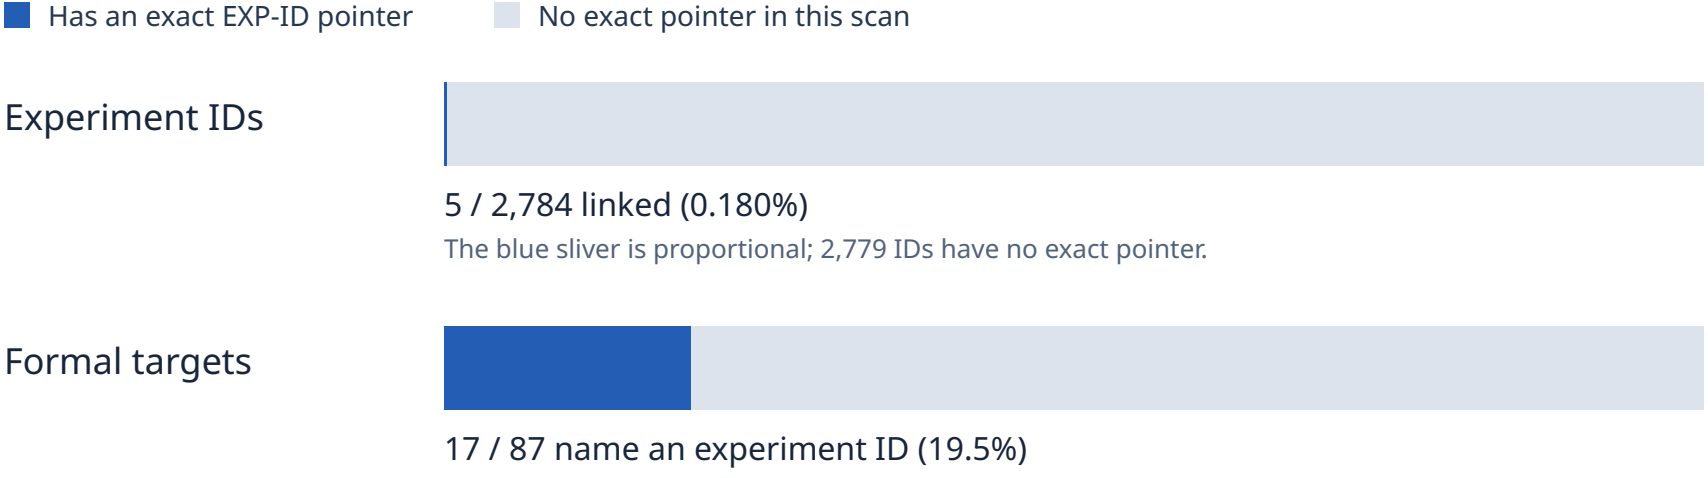
Formal target pointer inventory

crypto-autoresearcher main 351c9c021c7b · 2026-10-27 · syntactic references only



What this shows: source text and target specs contain an exact existing EXP-ID token.

What it cannot show: theorem fidelity, proof validity, run replay, or performance.

Source: inventory.json at commit 351c9c021c7b; generated by tools/formal_pointer_inventory.py.
