Controlled follow-up retained observations

Operational export: incomplete. Scientific validity: not assessed.
Observations only. Curve is the population unit; six cells share each confirmation trace.
No scientific, significance, scalar-ordering or performance conclusion.
Actual VM isolation remains unqualified. No qualified clocks or independent native worker counter replay.
Native RSS, interpreter allocations, I/O and Python integer internals are unmetered.
Undefined cost ratios remain null; zero costs remain zero. Requested backend/model/usage/probe are
unverified unless an authenticated record explicitly supplies them.

Operational failures and unified-export findings
Failures:
  [0]:
  message: "operational failure; no host oracle work allowed"
  type: "ValueError"
  [1]:
  message: "[Errno 2] No such file or directory:
'experiments/EXP-ECDLP-956f81/runs/RUN-ECDLP-c8d9b0/modal/collected/raw/traces.jsonl'"
  partial_analysis: "FileNotFoundError"
Export findings:
  [0]: "protocol arms with no run in the export: ['confirmation_incremental', 'confirmation_original']"
  [1]: "export has 0 measured rows; the protocol plans 2 (arms x instances x replicates); 2 with warmups. A
shortfall must be an infrastructure stop, never a choice"
  [2]: "arm confirmation_original: measured 0 instances, expected 1"
  [3]: "arm confirmation_incremental: measured 0 instances, expected 1"
Export validation:
  findings:
  [0]: "protocol arms with no run in the export: ['confirmation_incremental', 'confirmation_original']"
  [1]: "export has 0 measured rows; the protocol plans 2 (arms x instances x replicates); 2 with warmups. A
shortfall must be an infrastructure stop, never a choice"
  [2]: "arm confirmation_original: measured 0 instances, expected 1"
  [3]: "arm confirmation_incremental: measured 0 instances, expected 1"
  protocol_qualified: false
  schema_compliant: true

Coverage and physical traces
coverage: null
traces_by_curve: null
paired_discordants_t0e0_t1e2: null
uncertainty: null

Calibration (discovery and validation)
No retained decoder rows for this section.

Confirmation A
No retained decoder rows for this section.

Confirmation B
No retained decoder rows for this section.

Explicit disclosed fixtures / other retained identifiers
No retained decoder rows for this section.

Calibration: all retained arms and error/erasure histograms
Calibration unavailable; no values inferred.

Independent host references: BSGS cold/warm, nonzero uniform, null/support/duplicates/ties
References unavailable; no null eligibility, cold/warm result or uniform outcome inferred.

Cost scope and retained component vectors
cost_scope: null
setup_components: null
physical_trace_components_once: null
unmetered: null
wall_valid: null

counter_replay_qualified: null
Uniform reference uses min(M,r-1)/(r-1) on distinct nonzero candidates; M-determination is candidate work excluded from reference costs. Saturation is explicit.

Raw and source links / SHA256 digests
This terminal report binds existing inputs; report.md/report.svg/report.pdf are excluded from this index to avoid a self-hash cycle.
