Closed native third attempt: recorded counts

Native status: claim_expired

Generated curve entries: 48; paired export rows: None

Observed counts only; missing component results are absent, not zero recovery.

- attempted_native_trials: 1 count
- native_output_validated_trials: 0 count
- generated_curve_entries: 48 count

Same public/job equality: True. Missing results are not zero recovery. First239.009645s, second708.594168s, and current outer 628.2562872710041s are separate unqualified operational timings. Cells/blindings are dependent; curve is the population unit. No attackcost, exponent, performance or mathematical inference.
